PROJECTS

Accommodation Website For Travelers | [Link](#)

JavaScript,EJS,CSS,BootStrap

I have made a marketplace that connects people who want to rent out their homes or spaces with travelers looking for accommodations. User need do login inorder to post about their services and availability of accommodations along with the review system .

3D Website | [Link](#)

Javascript,React Js,Three Js,CSS

I have developed an interactive 3D portfolio website using Three.js and React.js to showcase personal projects and skills creatively. The platform features immersive 3D elements, smooth animations, and a modern user interface to enhance user engagement. Integrated responsive design principles to ensure optimal performance across devices.

Ecommerce Website

Java Script , React Js ,CSS

I have made an e-commerce website, built with React.js, JavaScript, and CSS, offers a seamless shopping experience. Featuring a modern, responsive design, it ensures compatibility across devices while delivering fast and interactive user interfaces. The platform includes product categorization, intuitive navigation, and a secure checkout process to enhance user convenience. With React's reusable components, the website is highly scalable and easy to maintain.

EXTRA CURRICULAR ACTIVITIES

- Web developer in CDSC club CBIT
- Actively follows cricket matches, analyzes strategies, and enjoys engaging with the sport both as a fan and player.
- Passionate about exploring and developing innovative solutions using the latest technologies.
- Enjoys playing table tennis recreationally, focusing on honing skills and promoting an active lifestyle.
- Played a key role in managing and coordinating the Jumbled Code event as part of the Sudhi Tech Fest
